

# Project WET Workshop

## Saturday, October 5th, 2019

### 9AM-4PM

## Bay Model Visitor Center

## Sausalito, CA

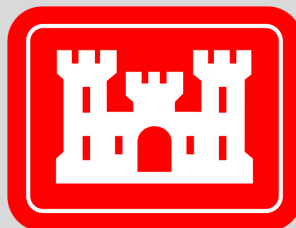

This workshop is for K-12 educators to explore how to connect and integrate the study of land-based watershed challenges to ocean and coastal impacts into their classrooms, while still addressing NGSS and Common Core standards. Engage your classes in local citizen science and stewardship opportunities that students can engage in to apply what they learn.

Please register on Eventbrite: <http://bit.ly/WETLandToSea>
