

Water Use Practice:

Oldest to most recent example of practice

--	--	--	--

What may have caused the need or desire for new technologies to be developed for this practice?

--	--	--	--

Estimated time or time factors Involved to create and/or install each example

--	--	--	--

Energy required to create, maintain or operate each example

--	--	--	--

Natural resources used to construct each example?

--	--	--	--

Waste materials generated by each example?

--	--	--	--

Use your information from above to describe and/or sketch what you think would be a better engineering design for the next generation of your water user category.
